QUEEN STREET

HE'S FOR PROSPERITY AND DEVELOPMENT OF HAWAII

THAT'S WHY MARK ROBINSON WANTS REPUBLICAN SUCCESS.

Declares it is to Best Interests of Every Citizen That the Republican Ticket Wins in Hawaii.

Mark P. Robinson announces that he will vote the straight republican ticket on November 6. He gives many sound reasons why he takes this stand in the present campaign.

In an interview with a Republican reporter yesterday, Mr. Robinson said:

"There are good men running on the various party tickets. I have the heartiest 'aloha' for several gentlemen on the democratic ticket and I am certain that they are fully responsible and trustworthy to look after our interests, but I am thoroughly convinced in my own mind that a republican success here means a great deal towards the speedy development of Hawaii. There is absolutely no question that the republican party is responsible for the stability of our present government and prosperity which we have today. All that any man in Hawaii needs to inquire of himself today upon the issue of this campaign is, 'What is to my best interest? What is to the best interest of my country?' I say, support the party that put the flag up in Hawaii and gave us unbounded prosperity, for the reason that the continued prosperity of this new territory will be insured under republican rule impels me to vote the republican ticket. I do not consider it a business proposition to undermine the basis of the prevailing good times.

"I firmly believe that McKinley and Roosevelt will be elected, and, believing as I do, it seems to me that it is highly essential that Hawaii send a republican delegate to congress. Aside from political reasons, I am positively sure that Mr. Parker, by reason of his acquaintance with Mr. McKinley and a large number of influential senators and congressmen, could accomplish far more for these islands than either of the other candidates.

"As a property owner and taxpayer I feel that it would be the best thing for the coming local legislature to be predominated by republicans. Such a condition of things would aid very materially those of our promoters who are abroad conducting negotiations towards the buying of foreign money into this market. The capitalists in the States are shy of making investments until the election is passed and our future success depends largely upon a republican victory abroad. I feel that in the event that Hawaiian people fail to endorse the republican party these capitalists will be reluctant to send their money down here to develop our enterprises and feeling as I do, that so much depends upon the success of our politics here, I am impelled

to lend my influence towards republican success.

"In a nutshell, I stand for prosperity and development as against free silver and lack of confidence."

Ready to Number Houses.

Mr. Stevenson, who will do the house numbering for Honolulu, will begin today. The superintendent of public works has approved the numbers submitted and the work should progress rapidly. The fee to be charged is 25 cents per number, with which is issued an official certificate. There is no city in the United States of equal size with Honolulu that does not have free mail delivery. Neither is there a city of the same size without a system of house numbers. It follows that everybody should meet the house number at the front gate, give him the glad mitt and place no obstacles in his way. Then free mail delivery may arrive with the new year.

REPUBLICANS ARRANGE ANOTHER BIG RALLY

The republican managers have already perfected plans for another monster rally at the drill shed Thursday night. Several boxes of new paraphernalia have arrived, containing material to add to the gaiety of the occasion. A new feature of the torchlight procession will be a few hundred flambeau torches. The list of speakers is being made out and will be announced tomorrow.

Athletic Medals Have Arrived.

The medals for the victors in the athletic contest given under the auspices of the Young Men's Christian association October 13 were received yesterday by Assistant Secretary Coates. There are twenty-six of them and they have very artistic designs stamped in silver and bronze. The medals arrived at the post-office October 24, but were not delivered until yesterday. The presentation of the tokens will take place at a public social and base ball game at the gymnasium either next Saturday or the following Thursday.

He Was Talking Politics.

Kahana, a native boy who was run in for drunkenness Saturday night, had a long colloquy with Judge Wilcox yesterday morning.

"I was not drunk, I was talking politics," said Kahana.

That this was a damaging admission was quite evident. The prisoner continued:

"I know I was not drunk. The policeman was drunk. All the policemen were drunk."

Kahana got \$2 and costs and was advised to eschew politics and obey policemen.

Used a Hatchet.

During a drunken brawl in Wailuku, Maui, on Tuesday last, Kaula, an ex-policeman, gashed the heads of his wife and mother-in-law with a hatchet. The man was under the influence of swipes at the time. He has been arrested and his victims are receiving treatment at the hands of Dr. Wedel.

ARE SAID TO FAVOR THE NICARAGUA ROUTE

ISTHMIAN CANAL COMMISSION AT WORK ON ITS REPORT.

Owing to Increased Size of Ships it Will Recommend a Channel Thirty-five Feet Deep.

NEW YORK, Oct. 18.—A special to the Herald from Washington says: The Isthmian canal commission is at work on its report, but it is evident that it will find it impossible to do more than submit a preliminary statement to congress when the session begins. This report will present facts and figures referring to both the Panama canal and the Nicaragua route. A vote has not yet been taken by the commission as to which it will recommend, nor will a decision be reached until further information has been received regarding both projects.

M. Hutin, president of the Panama Canal company, has arrived in Washington and paid his respects to the commission. He came to Washington in compliance with the request of Rear Admiral Walker and will stay here until he can be spared, when he will return to Paris. He will come back to Washington during the session of congress.

Notwithstanding the commission has not taken a vote as to route. It is apparent from the trend of its investigation that it favors the Nicaraguan waterway.

Because of the dimensions and displacement of modern steamships it has been determined that a canal thirty-five feet deep would be too small and the commission is preparing estimates on a canal which shall be thirty-five feet in depth and have a minimum width of 150 feet. On the thirty-foot canal the majority of the first Walker commission estimated the cost at about \$125,000,000. The increase in depth and width projected will necessarily make the projected canal more expensive. Barings are being made to ascertain if the increased excavation necessary will require the removal of rock or soft dirt.

Advocates of the Nicaraguan canal are getting considerable comfort out of the fact that the examination of the route recommended by the first Walker commission has, except in a few instances, shown its entire practicability.

The engineering parties sent out by the Isthmian commission have gone over every foot of the route. They have recommended that the sites of several locks be slightly changed and the commission will adopt their recommendations.

The general impression seems to be, however, that the commission will favor the Walker route, provided the barings being made for a larger canal should not show that the cost would be excessive.

Mr. Lampson, secretary of the Panama Canal company, who is in this city, said

last night that the company was prepared to meet any of the conditions which might be laid down by the Isthmian commission and was ready and willing to conform to any of its recommendations, however, for the Panama Canal company to outline its course of action, as everything would depend upon the results that would be reached by the commission.

He declared there are no obstacles which engineering skill cannot overcome in making the Panama canal acceptable to the Isthmian commission and that a canal of thirty-five feet in depth, with a minimum width of 150 feet, is perfectly feasible at the Panama route.

EX-QUEEN WINS A SUIT.

Wilson Cannot Hold Her to Performance of Alleged Contract.

The demurrer of ex-Queen Liliuokalani in the suit brought against her by Charles B. Wilson was sustained yesterday in the circuit court by Judge Humphreys, the action being dismissed without prejudice and the order was stayed for five days. The ex-queen did not admit any of the allegations of Wilson's complaint, but said he did not state a cause entitling him to any such relief as he sought and none of the agreements claimed by him were ever reduced to writing.

The suit involved the ownership of a residence property on Young street and the facts leading up to the suit were enacted in the revolutionary period, when Liliuokalani was a prisoner at the palace. The fact of her being so held rendered any action she might take as being under duress and Wilson candidly admits this in his complaint, which is now annulled.

Wilson was the ex-queen's business adviser. The relief he asked was for services as such.

CIRCUIT COURT UPHELD IN SWINTON WILL CASE.

A very lengthy decision of the supreme court in the case of Mary C. Aldrich vs. Priscilla E. Hassinger was filed yesterday. It sustains the lower court, giving the plaintiff the relief prayed for. The contest was over the estate of Mary C. Swinton and was to test a certain deed to W. J. Smith, deceased, adviser. The opinion of the court covers about sixty typewritten pages. It was not filed until a few moments before the closing hour of the clerk's office. A Republican reporter who was present did not have the opportunity to get a synopsis of the document because when it fell into his hands, Deputy Clerk Isaacson asked for a little more time, said he must close the office and proceed to his home, regardless of the public interest in the decision.

Latest Sugar Quotations.

NEW YORK, Oct. 18.—Sugar—Raw, steady; fair refining, 4.1-4c; centrifugal, 96 test, 4.3-4c; molasses sugar, 4c. Refined, quiet; crushed, 6.15c; powdered, 5.85c; granulated, 5.75c.

Vote the straight republican ticket.

PROBATE COURT NOTES

Lee Ling, temporary administrator of the estate of Ailona, deceased, appointed in 1897, has filed a petition for discharge and for the cancellation of his bond. At the time of his appointment the estate had in its possession twenty tons of salt at Kalia which was being damaged for want of administration, but there being no property now, the salt having been restrained for rental charges, the release is asked.

In the estate of H. A. Widdemann the account of the trustees was approved and the master's report confirmed. Receipts are shown to the amount of \$193,728, including the capital and income accounts. The expense account amounts to \$183,378.17, leaving \$11,349.83 in cash on hand.

C. J. Holt was yesterday appointed guardian of the estate of Umilihi and Kailua, minors, upon the petition of Melia Perry, the mother, the father, John Umil, being dead. The bond was fixed at \$500.

Vote first for Parker, then for all others on the republican ticket.

ALONG THE WHARVES.

ARRIVED.

Monday, October 23.
Am bkt Gardner City, Walton, 15 days from San Francisco.

Am strn Conemaugh, Roberts, 11 days from San Francisco, with mules and forage for Manila.

DEPARTED.

Monday, October 23.
